Django

About Django

"Django was invented to meet fast-moving newsroom deadlines, while satisfying the tough requirements of experienced web developers."

- High-level Python web framework
- Free and Open Source
- Django takes care of much of the hassle of web development:
  - User authentication
  - Content administration
  - SQL injection
  - Cross-site scripting
  - Cross-site request forgery
- Scalable and Versatile

Companies Involvement

DSF manages the money raised

Companies that fund the project are called Corporate Members
- Participation in membership discussions and Foundation member meetings
- Serve on committees or the board
- Don't receive preferential input into Django's development process

Different Levels of Corporate Membership based on annually donations
- Diamond. Dues: $100,000.
- Platinum. Dues: $30,000.
- Gold. Dues: $12,500.
- Silver. Dues: $5,000.
- Bronze. Dues: $2,000.

The Numbers

The last annual report from Django Foundation was released on 2014

How the money is spent:
- Funding development sprints and covering travel expenses
- Supporting other projects like Django Girls and DEFNA
- Biggest expense is the Django Fellowship Program: paid contractors to maintain the project. Currently there are two persons doing it.
